

HYDRAULIC FLANGE SPREADERS

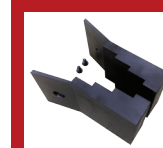

- For maintenance, valve change outs, commissioning, and testing
- Flange Spreader: Smooth, parallel flange movement opens flanges safely and easily. Low maintenance due to few moving parts.
- Flange spreader fits in gap as small as 6mm (~1/4").
- Flange Holder: Step shaped design allows flange to be held securely open in multiple increments.

HFSS14

MFSS08

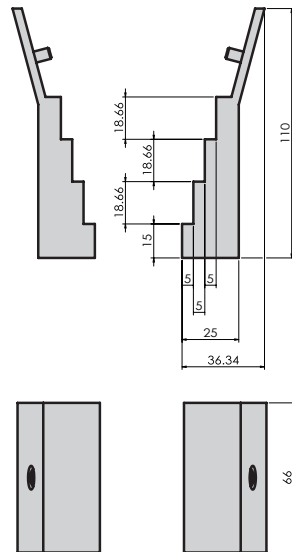

CFSS-02

Use stepped blocks to increase flange opening up to 80 mm. Fits both HFSS14 and MFSS08.
